

Nauset Public Schools' Mission

We exist to educate each student to the highest attainable levels of academic excellence, social responsibility, and cultural awareness.

District Goals 2009-2014

Utilize research-based instructional practices and assessments to improve individual student achievement.

Analyze individual student work and data to inform instruction and improve student achievement.

Participate in professional development related to data-analysis, assessment, content, technology, and research-based best practices and apply knowledge to instructional practices.

Develop and provide experiences, learning opportunities, and an educational environment that foster social responsibility and cultural awareness.
